CUMULATIVE SUBJECT INDEX

VOLUME 17

** indicates original article.*

ABORTION
—septic, with adrenal shock, 108
—vitamin C-hesperidin in prevention of, 51
ADENOMYOSIS
—carcinoma developing in areas of, 183
ADRENAL GLANDS
—adrenalectomy for mammary cancer, 75*
—hydrocortisone and aldosterone during pregnancy in Addison's disease, 108
—septic abortion with adrenal shock, 108
ALDOSTERONE
—in pregnancy in Addison's disease, 108
AMMONIA
—blood ammonia concentration and bromsulfalein retention in upper gastrointestinal hemorrhage, 38
AMNIOTIC FLUID
—changes in total osmotic pressure and sodium and potassium concentrations of, during human gestation, 172
ANALGESICS
—combined intravenous use of Pethidine, Phenergan, and Lorfan for analgesia in obstetrics, 113
—perphenazine in obstetrics, 53
ANAPLASIA
—atypical hyperplasia of cervix uteri, 62
ANESTHESIA
—anesthetic management during total hepatic lobectomy, 234
—neurologic sequelae of brachial plexus nerve block, 27
obstetric:
—maternal mortality associated with, 56
—with trichlorethylene, nitrous oxide, and oxygen, 176
ANEURYSMS
—comparison of arm and thigh blood pressures in patients with abdominal aortic, 168
AORTA
—coarctation of, in infants, 165
—comparison of arm and thigh blood pressures in patients with abdominal aortic aneurysms, 168
—evaluation of late failures after reconstructive operations for occlusive lesions of aorta and iliac, femoral, and popliteal arteries, 165
—importance of vasa vasorum of, 166
—ischemia of colon as complication in surgery of abdominal, 231
—primary intraluminal tumor of, producing malignant hypertension, 167
ARTERIES—*See also Aorta; Blood Vessels.*
—bedside diagnosis of carotid artery occlusive disease, 168
—evaluation of experimental endarterectomy in vessels of different caliber, 238
—evaluation of late failures after reconstructive operations for occlusive lesions of aorta and iliac, femoral, and popliteal arteries, 165
—significance of anomalous vertebral-basilar artery communications in operations on heart and great vessels, 164
—superior mesenteric artery syndrome, 160
—surgical considerations of patients with carotid artery occlusions, 169
—thrombosis of middle cerebral, during pregnancy, 50

BENZOCAINE
—open method treatment of burns with aerosol spray, 97
BILE DUCTS
—functional trans-sphincteric pancreatic and biliary flow in patients with and without pancreatic disease, 162
—liver decompression by drainage of common, in subacute and chronic jaundice, 233
—opacifying gallstones, 160
BLADDER
—diagnosis and treatment of congenital bladder neck obstruction in children, 41
—isolated ileal segment as means of urinary diversion, 237
—physiologic response to ileal, 253
BLOOD—*See also Hemorrhage; Transfusion.*
—blood ammonia concentration and bromsulfalein retention in upper gastrointestinal hemorrhage, 38
—changes in blood oxytocinase during parturition, 113
—changes in total osmotic pressure and sodium and potassium concentrations of amniotic fluid and maternal blood, 172
—electrophoretic alterations in serum proteins of patients with hirsutism, 127
—fetal, studies of, 120
—hemorrhage and transfusion as major cause of cardiac arrest, 219
—hypertension, pregnancy, and pheochromocytoma, 173
—indications for preoperative transfusions based on analysis of blood volumes and circulating proteins in normal and malnourished patients with and without cancer, 148
—Rh-Hr blood types, present status, 176
—serum leucine aminopeptidase activity in pregnancy, 105
—vascular dissemination of cancer, 203*
BLOOD PRESSURE
—comparison of arm and thigh, in patients with abdominal aortic aneurysms, 168
—renal vascular hypertension in children, 238
—shock and, 252

BLOOD VESSELS—*See also Arteries; Circulatory System; Veins.*
—aortic-pedicle technique for obtaining immediate vascularization of fetal parathyroid gland transplants, 224
—clinicopathologic correlation in thromboembolism., 245
—evaluation of experimental endarterectomy in vessels of different caliber, 238
—pedal pulses disappearing with exercise, 239
—portacaval shunt operation in patients with cirrhosis and ascites, 236
—significance of anomalous vertebral-basilar artery communications in operations on heart and great vessels, 164
—vascular dissemination of cancer, 203*
BOECK'S SARCOID
—pregnancy and cardiorespiratory failure in, 174
BOOK REVIEWS
—Christopher's Minor Surgery (ed. 8), 103
—Electrolyte Changes in Surgery, 43
—Experimental Surgery (ed. 4), 103
—Groves' Synopsis of Surgery, 43
—New Illustrated Medical Encyclopedia (The) for Home Use: A Practical Guide to Good Health, 104
—Practical Guide (A) to General Surgical Management, 171
—Principles of Pathology, 243
—Surgical Treatment (The) of Bone and Joint Tuberculosis, 103
—Textbook of Surgery (ed. 3), 43
—To Work In the Vineyard of Surgery: The Reminiscences of J. Collins Warren, 1842–1927, 102
—Total Surgical Management, 170
—Treatment (The) of Inflammatory Conditions of the Female Genital Tract, 171
—Xylocaine, the Pharmacological Basis of Its Clinical Use, 243
BREASTS
—novobiocin and prednisolone in puerperal mastitis, 249
—tolerance of skin grafts to radiation, study of postmastectomy irradiated grafts, 33
cancer:
—adrenalectomy for mammary cancer, 75*
—epidemiology of, 227
—thyroid disease and, 139*
BRONCHI
—duodenobronchial fistula, with summary of abdominothoracic fistulas, 228
—traumatic rupture of, 32
BUCLIZINE
—in sterility patients with anxiety states, 191
BURNS
—bovine embryo skin zoografts as temporary biologic dressings for burns and other skin defects, 29
—open method treatment of, with aerosol spray, 97
—primary excision in third degree, 223
—stored skin homografts in extensively burned patients, 152
CANCER—*See also Tumors, and under specific organ.*
—carcinoma developing in areas of adenomyosis, 183
—coexistent pseudomucinous cystadenocarcinoma and pregnancy, 109
—costal intraosseous venography, aid in management of intrathoracic neoplasia, 226
—effects of section of pituitary stalk in, 96
—indications for preoperative transfusions in normal and malnourished patients with and without cancer, 148
—mortality from, among women in three Catholic religious orders, 187
—operative wound seeding with tumor cells, role in recurrences of head and neck cancer, 151
—vascular dissemination of, 203*
CARBOHYDRATE METABOLISM
—in pregnancy, lactic acid production following insulin administration, 106
CENTRAL NERVOUS SYSTEM
—antenatal and paranatal circulatory disorders as a cause of cerebral damage in early life, 57
—bacteriologic studies and pressure recordings in jejunal Roux-en-Y segments used to shunt spinal fluid in hydrocephalic dogs, 29
—thrombosis of middle cerebral artery during pregnancy, 50
CEREBROSPINAL FLUID
—bacteriologic studies and pressure recordings in jejunal Roux-en-Y segments used to shunt spinal fluid in hydrocephalic dogs, 29
CERVIX—*See Uterus.*
CESAREAN SECTION
—disproportion in multipara, 178
—fate of postcesarean uterus, 178
—origin of pulmonary hyaline membrane disease in premature infants delivered by cesarean section before labor, 181
—perinatal mortality in primary, 180
—pulmonary hyaline membrane, contamination of lungs by blood-laden amniotic fluid in infants delivered by, 55
CHLORAMBUCIL
—clinical use of, 255
CIRCULATORY SYSTEM—*See also Arteries; Heart; Veins.*
—antenatal and paranatal circulatory disorders as a cause of cerebral damage in early life, 57
—collateral circulation between spleen transposited into thoracic cavity and vena cava superior, significance in portal decompression, 161
—epidemiologic considerations of thromboembolism, 191
—significance of anomalous vertebral-basilar artery communications in operations on heart and great vessels, 164
COLITIS
—fecal enema as adjunct in treatment of pseudomembranous enterocolitis, 27
—ulcerative, in pregnancy, 49
COLON—*See Intestines.*

CORPUS LUTEUM
—origin of human, 63
CROHN'S DISEASE
—review of, 101
CYTOLOGY
—new, rapid method of obtaining dry, fixed cytologic smears, 121
—source of false positives in cytologic interpretations, 184
—vaginal, cervical, and endocervical cytologic smears on a single slide, 122
—vaginal smears with *Trichomonas*, 122

DIVERTICULOSIS
—complication of jejunal, 232
DUODENUM—*See Intestines.*

EAR
—thrombophlebitis of dural venous sinuses following otitis media, 150
EDEMA
—acute pericarditis with pulmonary edema in pregnancy, 175
—total body water, sodium space, and total exchangeable sodium in normal and toxemic pregnant women, 109
ELECTROPHORESIS
—electrophoretic alterations in serum proteins of patients with hirsutism, 127
EMBOLISM
—epidemiologic considerations of thromboembolism, 191
—mechanism of death in pulmonary microembolism, 42
—stellate ganglion block for pulmonary embolism complicating pregnancy, 49
EMOTIONAL DISORDERS
—painless acute surgical disorders in psychotic patients, 96
—treatment of, in obstetrics and gynecology with thioridazine, 44*
ENDOMETRIUM—*See Uterus.*
ENOVID
—for premenstrual tension, 121
EPISIOTOMY
—physiologic appraisal and new technique, 177
ERYSIPELAS
—in pregnancy, 114
ERYTHROBLASTOSIS FETALIS
—placenta in, 243
ESCHERICHIA COLI
—endotoxin shock and generalized Schwartzman reaction in pregnancy, 173
—shock not related to blood loss, with *Escherichia coli* septicemia in obstetric patient, 172
ESOPHAGUS
—closing mechanism at gastroesophageal junction, 228
—costal intraosseous venography, aid in management of intrathoracic neoplasia, 226
—esophagitis following total gastrectomy, 158
—immediate reconstruction of cervical, by revascularized isolated jejunal segment, 154
—intravenous Pituitrin in treatment of bleeding esophageal varices, 39
—recognition and treatment of esophageal perforations, 226
ESTROGENS
—endometrial carcinoma following prolonged estrogen administration in ovariectomized woman, 124
EYE
—incidence of ophthalmia neonatorum without prophylaxis, 118

FAT EMULSIONS
—for clinical intravenous therapy, 148
FETUSES
—blood studies on, 120
—causes of stillbirth, 181
—changes in total osmotic pressure and sodium and potassium concentrations of amniotic fluid during human gestation, 172
—disproportion in multipara, 178
—hyperextension of fetal head in breech presentation, 116
—two choice human embryos at Streeter's horizons XI and XIV, 116
FISTULA(S)
—duodenobronchial, with summary of abdominothoracic, 228
—femoral arteriovenous fistula creation in treatment of short leg, 170
—report of case of cervicosigmoidal, 192
FRACTURES
—primary repair of compound skull, in children, 221
—spontaneous rib, during pregnancy, 111

GALL BLADDER
—carcinoma of gall bladder and acute cholecystitis, 234
—diagnostic value of intravenous cholangiography during acute cholecystitis and acute pancreatitis, 40
GANGLIA
—results of 1000 consecutive basal ganglia operations for parkinsonism, 222
GASTRECTOMY
—iron metabolism in patients after partial gastrectomy, 157
—partial, for peptic ulcer, 229
—radiologic appearances in postgastrectomy dumping syndrome, 227
GASTRIN
—mechanism of vagus influence on hormonal phase of gastric acid secretion, 229
GASTROINTESTINAL TRACT—*See also Gastrectomy; Ulcers; and under specific organ.*
—Billroth I and Billroth II reconstructions, clinical comparison of results of two methods, 35
—closing mechanism at gastroesophageal junction, 228
—effect of gastric intubation on normal mechanisms preventing gastroesophageal reflux, 230
—intestinal rupture in association with pregnancy, 114

—management of uremia by perfusion of isolated proximal half of small intestine, 163
—mechanism of vagus influence on hormonal phase of gastric acid secretion, 229
—necrosis of entire, following translumbar aortography, 230
—peritoneal dialysis, technique and applications, 254
—prophylaxis and treatment of postpartum and postoperative ileus with pantothenyl alcohol, 28
—radiographic follow-up in hypertrophic pyloric stenosis, 159
—recognition and treatment of esophageal perforations, 226
—subtotal gastric resection with reconstruction of a neostomach utilizing transverse colon, 99
—surgical treatment of pulsion diverticula of hypopharynx, one stage resection in 478 cases, 225
cancer:
—costal intraosseous venography, aid in management of intrathoracic neoplasia, 226
—development of gastric cancer after gastroenterostomy and gastrectomy for peptic ulcer and benign pyloric stenosis, 36
—intraperitoneal and local use of nitrogen mustard (mechlorethamine) at time of operation for gastrointestinal cancer, 156
—ovarian metastases from adenocarcinomas of colon and rectum, 125
colitis:
—fecal enema as adjunct in treatment of pseudomembranous enterocolitis, 27
—ulcerative colitis and pregnancy, 49
fistulas:
—cervicosigmoidal fistula, 192
—duodenobronchial fistula, with summary of abdominothoracic fistulas, 228
hemorrhage:
—blood ammonia concentration and bromsulfalein retention in upper gastrointestinal, 38
—depressant action of local gastric hypothermia on gastric digestion, use in control of massive hematemesis, 157
—diagnosis of gastrointestinal, 100
—intravenous Pituitrin in treatment of bleeding esophageal varices, 39
—management of massive hemorrhage from diverticular disease of colon, 39
GLUCOSE
—as adjunct to carotid arteriography, 149
GOUT
—study of, 242

HAIR
—body hair in old people, 256
—electrophoretic alterations in serum proteins of patients with hirsutism, 127
HEART
—acute pericarditis with pulmonary edema in pregnancy, 175
—hemorrhage and transfusion as major cause of cardiac arrest, 219
—pregnancy and cardiorespiratory failure in Boeck's sarcoid, 174
—significance of anomalous vertebral-basilar artery communications in operations on heart and great vessels, 164
—surgery for cardiac arrest, 32
HEMOPHILUS VAGINALIS
—association of, with puerperal pyrexia and leukorrhea, 248
HEMORRHAGE
—blood ammonia concentration and bromsulfalein retention in upper gastrointestinal, 38
—depressant action of local gastric hypothermia in gastric digestion, use in control of massive hematemesis, 157
—diagnosis of gastrointestinal, 100
—hemorrhagic diathesis associated with massive transfusion, 28
—incidence of unsuspected "Sheehan's syndrome," hypopituitarism after postpartum hemorrhage and/or shock, 179
—intravenous Pituitrin in treatment of bleeding esophageal varices, 39
—management of massive hemorrhage from diverticular disease of colon, 39
—transfusion and, as major cause of cardiac arrest, 219
—vaginal packing speculum, 60
HEPATITIS
—infectious, in pregnancy, 111
HERNIA
—inguinal and femoral hernioplasty, results following Bassini and McVay repairs, 34
—strangulated femoral, 98
—study of symptomatic hiatus, 37
—study of wound infections in hernia cases, 126
HESPERIDIN
—in abortion prophylaxis, 51
HIRSCHSPRUNG'S DISEASE
—study of, 38
HISTOLOGY
—source of false positives in cytologic interpretations, 184
—squamocolumnar transitional zone of cervix uteri, 182
HORMONES—*See also under specific hormone.*
—5-hydroxytryptamine and carcinoid tumors, 11*
—increased effectiveness in progestational agent with methyl group attached at carbon position 6 of steroid ring, 128
—vagus influence on hormonal phase of gastric acid secretion, 229
HYALINE MEMBRANE DISEASE
—in infants delivered by cesarean section, 55, 181
HYDATIDIFORM MOLE
—diagnosis of, 51
HYDROCEPHALUS
—bacteriologic studies and pressure recordings in jejunal Roux-en-Y segments used to shunt spinal fluid in hydrocephalic dogs, 29

HYDROCHLOROTHIAZIDE
—uric acid retention due to, 255
HYDROCORTISONE
—in pregnancy in Addison's disease, 108
5-HYDROXYTRYPTAMINE
—carcinoid tumors and, 11*
HYDROXYZINE
—in sterility patients with anxiety states, 191
HYPERTENSION
—in pregnancy, pheochromocytoma and, 173
—primary intraluminal tumor of aorta producing malignant, 167
—renal vascular, in children, 238
HYSTEROSTOMATOMY
—study of, 246

ILEUS
—prophylaxis and treatment of postpartum and postoperative, with pantothenyl alcohol, 28
INSTRUMENTS
—disposable cervical biopsy knife, 189
—new vaginal speculum, 250
—vaginal packing speculum, 60
INSULIN
—carbohydrate metabolism in pregnancy, lactic acid production following insulin administration, 106
INTESTINES
—complication of jejunal diverticulosis, 232
—Crohn's disease, 101
—duodenobronchial fistula, with summary of abdominothoracic fistulas, 228
—Hirschsprung's disease, study of, 38
—implantation metastases from cancer of large bowel, 102
—ischemia of colon as complication in surgery of abdominal aorta, 231
—management of massive hemorrhage from diverticular disease of colon, 39
—recurrent intestinal obstruction, 232
—superior mesenteric artery syndrome, 160
INTRAVENOUS THERAPY
—fat emulsions for, 148
IRON
—metabolism of, in patients after partial gastrectomy, 157

JAUNDICE
—liver decompression by drainage of common bile duct in subacute and chronic, 233
—in newborn, vitamin K and unexplained, 58

KIDNEYS
—management of uremia by perfusion of isolated proximal half of small intestine, 163
—peritoneal dialysis, technique and applications, 254
—renal maturity of infants of toxemic mothers, 119
—renal vascular hypertension in children, 238
—successful homotransplantation of, between nonidentical twins, 241

LABOR—*See also Cesarean section.*
—birth injuries to spinal cord, 179
—changes in blood oxytocinase during parturition, 113
—diagnosis of umbilical cord complications, 115
—episiotomy, new, painless technique, 177
—factors in decline of maternal mortality, 58
—hysterostomatomy, 246
—induction of, in nullipara, 54
drugs in:
—combined intravenous use of Pethidine, Phenergan and Lorfan for analgesia in obstetrics, 113
—maternal mortality associated with anesthesia, 56
—obstetric anesthesia with trichlorethylene, nitrous oxide, and oxygen, 176
—perphenazine to replace analgesics in, 53
fetal positions:
—errors of presentation, 174
—hyperextension of fetal head in breech presentation, 116
—persistent occiput posterior position, 48
LACTIC ACID
—carbohydrate metabolism in pregnancy, lactic acid production following insulin administration, 106
LEG(S)
—Cockett's operation and/or popliteal resection in treatment of leg ulcers, 169
—femoral arteriovenous fistula creation in treatment of short leg, 170
—late consequences of sciatic nerve injury, 239
—pedal pulses disappearing with exercise, 239
LEUCINE AMINOPEPTIDASE
—in pregnancy, 105
LEUKORRHEA
—puerperal, *Hemophilus vaginalis* and, 248
LIVER
—anesthetic management during total hepatic lobectomy, 234
—collateral circulation between spleen transposited into thoracic cavity and vena cava superior, significance in portal decompression, 161
—decompression of, by drainage of common bile duct in subacute and chronic jaundice, 233
—infectious hepatitis in pregnancy, 111
—portacaval shunt operation in patients with cirrhosis and ascites, 236
—scintigraphy and portography, value of, in diagnosis of liver disease, 235
—vitamin K and unexplained jaundice in newborn, 58
LORFAN
—combined intravenous use of Pethidine, Phenergan and Lorfan for analgesia in obstetrics, 113
LUNGS
—acute pericarditis with pulmonary edema in pregnancy, 175
—biopsy of, 225
—hyaline membrane disease in infants delivered by cesarean section, 55, 181

—mediastinal and pulmonary angiography as aid in determining resectability of primary lung cancer, 98
—partial resection of remaining lung with respirator treatment, 155
—pulmonary resection in treatment of tuberculosis, 31
—stellate ganglion block for pulmonary embolism complicating pregnancy, 49
cancer:
—costal intraosseous venography, aid in management of intrathoracic neoplasia, 226
—mediastinal and pulmonary angiography as aid in determining resectability of primary, 98
—natural history of, 154
embolism:
—epidemiologic considerations of thromboembolism, 191
—mechanism of death in pulmonary microembolism, 42
—stellate ganglion block for pulmonary embolism complicating pregnancy, 49

MASTITIS
—novobiocin and prednisolone in puerperal, 249
MEDIASTINUM
—mediastinal and pulmonary angiography as aid in determining resectability of primary lung cancer, 98
MENOPAUSE
—postmenopausal endometriosis, 64
MENSTRUAL CYCLE
—Enovid therapy for premenstrual tension, 121
—fate of postcesarean uterus, 178
—origin of human corpus luteum, 63
—semiobjective criteria of teen-age dysmenorrhea, 59
MEPERIDINE
—combined intravenous use of Pethidine, Phenergan and Lorfan for analgesia in obstetrics, 113
MORTALITY
—causes of stillbirth, 181
—epidemiology of puerperal fever and maternal mortality in Antigua, West Indies, over last hundred years, 248
—factors in decline of maternal, 58
—maternal, associated with anesthesia, 56
—mechanism of death in pulmonary microembolism, 42
—perinatal, in primary cesarean section, 180
—public health aspects of perinatal mortality and morbidity, 180
—of women in three Catholic religious orders, 187
MUELLERIAN DUCT
—fibromyomata from remnants of, 124
MULTIPLE BIRTHS—*See Pregnancy, multiple.*
MUSCLES
—experimental spasmodic torticollis, 150

NECK
—experimental spasmodic torticollis, 150
—operative wound seeding with tumor cells: role in recurrences of head and neck cancer, 151
NERVES
—late consequences of sciatic nerve injury, 239
—mechanism of vagus influence on hormonal phase of gastric acid secretion, 229
—neurologic sequelae of brachial plexus nerve block, 27
—results of 1000 consecutive basal ganglia operations for parkinsonism, 222
—stellate ganglion block for pulmonary embolism complicating pregnancy, 49
NEWBORN
—antenatal and paranatal circulatory disorders as a cause of cerebral damage in early life, 57
—birth injuries to spinal cord, 179
—causes of stillbirth, 181
—coarctation of aorta in, 165
—diagnosis of umbilical cord complications, 115
—hematoma of umbilical cord, case report, 247
—incidence of ophthalmia neonatorum without prophylaxis, 118
—isolation of infants with thrush, 117
—perinatal mortality in primary cesarean section, 180
—public health aspects of perinatal mortality and morbidity, 180
—pulmonary hyaline membrane disease in infants delivered by cesarean section, 55, 181
—renal maturity of infants of toxemic mothers, 119
—surveillance and control of staphylococcic infections in maternity unit, 119
—vitamin K and unexplained jaundice in, 58
NITROGEN MUSTARD
—local and intraperitoneal use of, at time of surgery for cancer, 156
NITROUS OXIDE
—for obstetric anesthesia, 176

OCCLUSION
—bedside diagnosis of carotid artery occlusive disease, 168
—surgical considerations of patients with carotid artery occlusion, 169
OPHTHALMIA NEONATORUM
—incidence of, without prophylaxis, 118
ORTHOPEDICS
—femoral arteriovenous fistula creation in treatment of short leg, 170
OSMOTIC PRESSURE
—changes in total osmotic pressure and sodium and potassium concentrations of amniotic fluid during human gestation, 172
OSTEOMYELITIS
—acute hematogenous osteomyelitis, review of 66 cases, 240
OVARIES
—indications for wedge resection, 189
—origin of human corpus luteum, 63

—ovarian metastases from adenocarcinomas of colon and rectum, 125
—primary ovarian pregnancy, 112
—radiation dosage to, during diagnostic roentgenographic procedures, 251
—serous adenofibroma and cystadenofibroma of, 125
OXYGEN
—for obstetric anesthesia, 176
OXYTOCINASE
—changes in blood, during parturition, 113

PAIN
—painless acute surgical disorders in psychotic patients, 96
PANCREAS
—diagnostic value of intravenous cholangiography during acute cholecystitis and acute pancreatitis, 40
—functional trans-sphincteric pancreatic and biliary flow in patients with and without pancreatic disease, 162
PANTOTHENYL ALCOHOL
—in prophylaxis and treatment of postpartum and postoperative ileus, 28
PARATHYROID GLAND
—aortic pedicle technique for obtaining immediate vascularization of fetal parathyroid gland transplants in man, 224
PARKINSONISM
—results of 1000 consecutive basal ganglia operations for, 222
PAROTID GLANDS
—surgical management of lesions of, 222
PERITONEUM
—peritoneal dialysis, technique and applications, 254
PERPHENAZINE
—in labor, 53
PHARYNX
—surgical treatment of pulsion diverticula of hypopharynx, one stage resection in 478 cases, 225
PHEOCHROMOCYTOMA
—hypertension, pregnancy and, 173
PITUITARY GLAND
—effects of section of pituitary stalk in malignant disease, 96
—incidence of unsuspected "Sheehan's syndrome," hypopituitarism after postpartum hemorrhage and/or shock, 179
PITUITRIN
—intravenous, in treatment of bleeding esophageal varices, 39
PLACENTA
—placenta accreta, report of 2 cases, 1 with spontaneous uterine rupture, 175
—study of growth of human, with observations on placenta in erythroblastosis fetalis, 243
PLASTIC SURGERY
—bovine embryo skin zoografts as temporary biologic dressings for burns and other skin defects, 29
—primary excision in third degree burns, 223
—stored skin homografts in extensively burned patients, 152
—tolerance of skin grafts to radiation, study of postmastectomy irradiated grafts, 33
PREGNANCY—*See also Abortion; Labor.*
—carbohydrate metabolism in, lactic acid production following insulin administration, 106
—changes in blood oxytocinase during parturition, 113
—changes in total osmotic pressure and sodium and potassium concentrations of amniotic fluid and maternal blood, 172
—disproportion in multipara, 178
—empirical thyroid substances and, 105
—leucine aminopeptidase in, 105
—Rh-Hr blood types, present status, 176
extrauterine:
—ectopic pregnancy, review of, 52
—hydatidiform mole diagnosis, 51
—primary ovarian pregnancy, 112
fetal position:
—errors of presentation, 174
—hyperextension of fetal head in breech presentation, 116
—persistent occiput posterior position, 48
intercurrent conditions:
—acute pericarditis with pulmonary edema, 175
—acute purulent salpingitis in late, 110
—and cardiorespiratory failure in Boeck's sarcoid, 174
—cervical fibroids in, 55
—clinicopathologic correlation in thromboembolism, 245
—coexistent pseudomucinous cystadenocarcinoma, 109
—endotoxin shock and generalized Schwartzman reaction in, 173
—erysipelas in, 114
—etiology, development, and effect of protrusio acetabuli (Otto pelvis), 245
—hydrocortisone and aldosterone during pregnancy in Addison's disease, 108
—hypertension and pheochromocytoma and, 173
—infectious hepatitis in, 111
—intestinal rupture in, 114
—middle cerebral artery thrombosis and, 50
—shock not related to blood loss, with *Escherichia coli* septicemia in obstetric patient, 172
—spontaneous rib fracture during, 111
—stellate ganglion block for pulmonary embolism complicating, 49
—surveillance and control of staphylococcic infections in maternity unit, 119
—total body water, sodium space, and total exchangeable sodium in normal and toxemic pregnant women, 109
—treatment of emotional disorders in obstetrics and gynecology with thioridazine, 44*
—tuberculosis, management of, 244
—ulcerative colitis in, 49
multiple:
—early diagnosis of, 107
—monoamniotic twin pregnancy, 48

placenta in:
—placenta accreta, report of 2 cases, 1 with spontaneous uterine rupture, 175
—study of human placental growth with observations on placenta in erythroblastosis fetalis, 243
uterus in:
—cervix in, 106
—effects of L-sparteine, D-sparteine, and retamine (7-hydroxysparteine) on spontaneous motility in different parts of pregnant and nonpregnant uterus, 251

PROCAINE
—as adjunct to carotid arteriography, 149

PROMETHAZINE
—combined intravenous use of Pethidine, Phenergan, and Lorfan for analgesia in obstetrics, 113

PROPHYLAXIS
—of abortion, vitamin C-hesperidin in, 51
—incidence of ophthalmia neonatorum without, 118
—and treatment of postpartum and postoperative ileus with pantothenyl alcohol, 28

PROTEINS
—electrophoretic alterations in serum proteins of patients with hirsutism, 127

PUERPERIUM
—cervix in, 106
—epidemiology of puerperal fever and maternal mortality in Antigua, West Indies, 248
—*Hemophilus raginalis*, association of, with puerperal pyrexia and leukorrhea, 248
—incidence of unsuspected "Sheehan's syndrome," hypopituitarism after postpartum hemorrhage and/or shock, 179
—novobiocin and prednisolone in puerperal mastitis, 249
—prophylaxis and treatment of postpartum and postoperative ileus with pantothenyl alcohol, 28
—surveillance and control of staphylococcic infections in maternity unit, 119

PYLORIS
—development of gastric cancer after gastroenterostomy and gastrectomy for peptic ulcer and benign pyloric stenosis, 36
—new technique of pyloroplasty, 35
—radiographic follow-up in hypertrophic pyloric stenosis, 159

PYREXIA
—puerperal, *Hemophilus raginalis* and, 248

RADIATION
—carcinoma of thyroid in children after X-ray therapy in early childhood, 30
—dosage of, to female gonads during diagnostic roentgenographic procedures, 251
—tolerance of skin grafts to, study of postmastectomy irradiated grafts, 33

RESPIRATOR
—partial resection of remaining lung with respirator treatment, 155

RESPIRATORY TRACT—*See also under specific organ.*
—acute pericarditis with pulmonary edema in pregnancy, 175
—costal intraosseous venography, aid in management of intrathoracic neoplasia, 226
—duodenobronchial fistula, with summary of abdominothoracic fistulas, 228
—increase in tracheostomy in Norwegian hospital, 219
—lung biopsy, 225
—pregnancy and cardiorespiratory failure in Boeck's sarcoid, 174
—tracheostomy in disease of lower, 220
—traumatic rupture of bronchus, 32

RIBS
—spontaneous fracture of, in pregnancy, 111

ROENTGENOGRAPHY
—angiographic aspects of disease of thyroid, evaluation of subclavian retrograde arteriography procedures as means of clinical study, 152
—costal intraosseous venography, aid in management of intrathoracic neoplasia, 226
—diagnosis in gastrointestinal hemorrhage, planned investigation with arteriographic studies of human stomach, 100
—diagnostic value of intravenous cholangiography during acute cholecystitis and acute pancreatitis, 40
—hysterosalpingography with new water-soluble medium (Sinografin), 254
—mediastinal and pulmonary angiography as aid in determining resectability of primary lung cancer, 98
—necrosis of entire gastrointestinal tract following translumbar aortography, 230
—procaine and hypertonic glucose as possible adjuncts to carotid arteriography, 149
—radiation dosage to female gonads during diagnostic roentgenographic procedures, 251
—radiographic follow-up in hypertrophic pyloric stenosis, 159
—radiologic appearances in postgastrectomy dumping syndrome, 227
—roentgen television in surgery, with special reference to stereotelevision, 241
—scintigraphy and portography, value of, in diagnosis of liver disease, 235

SALPINGITIS
—in pregnancy, 110

SCIATIC NERVE
—late consequences of injury to, 239

SEPTICEMIA
—shock not related to blood loss, with *Escherichia coli* septicemia in obstetric patient, 172

SHOCK
—endotoxin shock and generalized Schwartzman reaction in pregnancy 173

—incidence of unsuspected "Sheehan's syndrome," hypopituitarism after postpartum hemorrhage and/or shock, 179
—shock and blood pressure, 252
—shock not related to blood loss, with *Escherichia coli* septicemia in obstetric patient, 172
SINOGRAFIN
—hysterosalpingography with new water-soluble medium, 254
SKIN
—bovine embryo skin zografts as temporary biologic dressings for burns and other skin defects, 29
—stored skin homografts in extensively burned patients, 152
SKULL
—primary repair of compound skull fractures in children, 221
SODIUM
—changes in total osmotic pressure and sodium and potassium concentrations of amniotic fluid during human gestation, 172
—total body water, sodium space, and total exchangeable sodium in normal and toxemic pregnant women, 109
SPINAL CORD
—birth injuries to, 179
SPLEEN
—collateral circulation between spleen transposited into thoracic cavity and vena cava superior, significance in portal decompression, 161
—splenosis, autotransplantation of splenic tissue following injury to spleen, 162
STAPHYLOCOCCI
—fecal enema as adjunct in treatment of pseudomembranous enterocolitis, 27
—staphylococcic wound infections, study of wound infections in hernia cases, 126
—surveillance and control of staphylococcic infections in maternity unit, 119
STERILITY
—buclizine and hydroxyzine as ataraxics in, 191
STILLBIRTH
—causes of, 181
STOMACH—*See also Ulcers.*
—depressant action of local gastric hypothermia on gastric digestion, use in control of massive hematemesis, 157
—development of gastric cancer after gastroenterostomy and gastrectomy for peptic ulcer and benign pyloric stenosis, 36
—effect of gastric intubation on normal mechanisms preventing gastroesophageal reflux, 230
—esophagitis following total gastrectomy, 158
—iron metabolism after partial gastrectomy, 157
—mechanism of vagus influence on hormonal phase of gastric-acid secretion, 229
—new technique of pyloroplasty, 35
—radiographic follow-up in hypertrophic pyloric stenosis, 159
—subtotal gastric resection with reconstruction of a neostomach utilizing transverse colon, 99
SYPHILIS
—epidemiology of, 128

TEMPERATURE
—depressant action of local gastric hypothermia in gastric digestion, use in control of massive hematemesis, 157
THIORIDAZINE
—in treatment of emotional disorders in obstetrics and gynecology, 44*
THROAT
—isolation of infants with thrush, 117
—surgical treatment of pulsion diverticula of hypopharynx, one stage resection in 478 cases, 225
THROMBOPHLEBITIS
—of lateral sinuses after otitis media, 150
THROMBOSIS
—of middle cerebral artery during pregnancy, 50
THRUSH
—isolation of infants with, 117
THYROID GLANDS
—angiographic aspects of disease of, evaluation of subclavian retrograde arteriography procedures as a means of clinical study, 152
—breast cancer and thyroid disease, 139*
—effect of empirical thyroid substances on pregnancy, 105
cancer:
—carcinoma of, in children after X-ray therapy in early childhood, 30
—treatment of papillary carcinoma of, 153
TOXEMIA
—hypertension, pregnancy, and pheochromocytoma, 173
—renal maturity of infants of toxemic mothers, 119
—total body water, sodium space, and total exchangeable sodium in normal and toxemic pregnant women, 109
TRACHEOTOMY
—increase in tracheostomy in Norwegian hospital, 219
—tracheostomy in lower respiratory tract disease, 220
TRANSFUSION
—hemorrhage and transfusion as major cause of cardiac arrest, 219
—hemorrhagic diathesis associated with massive, 28
—indications for preoperative, based on analysis of blood volumes and circulating proteins in normal and malnourished patients with and without cancer, 148
TRICHLORETHYLENE
—for obstetric anesthesia, 176
TRICHOMONAS
—cytology of vaginal smears with, 122
TUBERCULOSIS
—pregnancy and, 244
—pulmonary resection in treatment of, 31
—surgery for female genital, 63

TUMORS—*See also Cancer.*
—carcinoid, 5-hydroxytryptamine and, 11*
—cervical fibroids complicating pregnancy, 55
—costal intraosseous venography, aid in management of intrathoracic neoplasia, 226
—fibromyomata from Muellerian duct remnants, 124
—hematoma of umbilical cord, case report, 247
—operative wound seeding with tumor cells, role in recurrences of head and neck cancer, 151
—primary intraluminal tumor of aorta producing malignant hypertension, 167
—sarcoma botryoides in children, 186
—surgical management of parotid lesions, 222
TWINS
—monoamniotic twin pregnancy, 48
—successful homotransplantation of kidney between nonidentical twins, 241

ULCERS
—Cockett's operation and/or popliteal resection in treatment of leg ulcers, 169
—development of gastric cancer after gastroenterostomy and gastrectomy for peptic ulcer and benign pyloric stenosis, 36
—partial gastrectomy for peptic, 229
—postmortem analysis of gastroduodenal, 100
—radiologic appearances in postgastrectomy dumping syndrome, 227
UMBILICAL CORD
—diagnosis of umbilical cord complications, 115
—hematoma of, case report, 247
UREMIA
—management of, by perfusion of isolated proximal half of small intestine, 163
URETHRA
—anatomy of female, 126
URINARY SYSTEM
—anterior vaginal suspension operation, 190
—evaluation of use of isolated segment of ileum as means of urinary diversion, 237
—management of uremia by perfusion of isolated proximal half of small intestine, 163
—physiologic response to ileal bladder, 253
—renal vascular hypertension in children, 238
—total unilateral Teflon ureteral substitutes in dogs, 163
—uric acid retention due to hydrochlorothiazide, 255
UTERUS
—atypical hyperplasia of the cervix, 62
—cervical fibroids complicating pregnancy, 55
—cervix in pregnancy and postpartum period, 106
—cytology of vaginal smears with *Trichomonas*, 122
—disposable cervical biopsy knife, 189
—disproportion in multipara, 178
—effects of L-sparteine, D-sparteine, and retamine (7-hydroxysparteine) on spontaneous motility in different parts of pregnant and nonpregnant, 251
—endometrial polyps, diagnosis at curettage, 182
—enterouterine fistulas, report of case of cervicosigmoidal fistula, 192
—fate of postcesarean, 178
—hysterosalpingography with new water-soluble medium (Sinografin), 254
—pessary complications in management of uterine prolapse, 186
—placenta accreta, report of 2 cases, 1 with spontaneous uterine rupture, 175
—postmenopausal endometriosis, 64
—source of false positives in cytologic interpretations, 184
—squamocolumnar transitional zone of cervix uteri, 182
—uterine procidentia with incarceration, 185
cancer:
—carcinoma developing in areas of adenomyosis, 183
—endometrial carcinoma following prolonged estrogen administration in ovariectomized woman, 124
—host factors in carcinoma of cervix, 187
—in situ of cervix, 61
—leiomyosarcoma with unusual metastases, 123
—nature of cervix, 188
—pelvic exenteration for carcinoma of, 41
—primary surgical treatment of invasive cancer of cervix, 253
—sarcoma, 184
—treatment of, in private practice, 60
tumors:
—fibromyomata from Muellerian duct remnants, 124
—sarcoma botryoides, 186

VAGINA
—anterior vaginal suspension operation, 190
—cytology of vaginal smears with *Trichomonas*, 122
—*Hemophilus vaginalis*, association of, with puerperal pyrexia and leukorrhea, 248
—new vaginal speculum, 250
—speculum for packing, 60
VEINS
—Cockett's operation and/or popliteal resection in treatment of leg ulcers, 169
—collateral circulation between spleen transposited into thoracic cavity and vena cava superior, significance in portal decompression, 161
—importance of vasa vasorum of aorta, 166
—resection and replacement of superior vena cava, 224
—thrombophlebitis of dural venous sinuses following otitis media, 150
VITAMIN C
—in abortion prophylaxis, 51

VITAMIN K
—unexplained jaundice in newborn and, 58
VULVA
—primary carcinoma of, with special reference to "leukoplakia," 250

WOUNDS
—operative wound seeding with tumor cells, role in recurrences of head and neck cancer, 151
—staphylococcic wound infections, study of wound infections in hernia cases, 126
